

Salon Sanitation Checklist

Name:

Date:

- Sweep floors clean after each guest service, especially after every haircut. Deposit all waste materials in a waste receptacle with a self-closing lid.
- Control all types of dust. Hairsprays will cause dust to collect.
- Regularly clean fans, ventilation systems, and humidifiers.
- Keep rest rooms clean and tidy. Remember to clean bathroom door handles. Provide toilet tissue, paper towels, and pump-type liquid soap in the rest room
- Clean sinks and drinking fountains regularly. Provide disposable drinking cups. Reusable cups are strickley prohibited it most states.
- Never place food in refrigerators used to store salon products.
- Prohibit eating, drinking, and smoking in areas where services are performed
- Empty waste receptacles regularly throughout the day.
- Make sure all containers are properly marked, tightly closed, and properly stored.
- Do not place any tools, combs, rollers, or hairpins in your mouth or pockets.
- If you drop an implement on the floor, disinfect it before using it again. Properly clean and disinfect all tools and implements after each use and store them in a clean, covered container
- Avoid touching your face, mouth, or eye areas during services.
- Clean and disinfect all work surfaces, including manicure tables, aesthetic beds, workstations, and chairs, between client services. Clean shampoo bowls and disinfect the neck of the bowl after each client.
- Replace disposable gloves between each guest.
- Waxing services should be done with brand new gloves, waxing sticks and strips. Sticks can NOT be re-dipped after touching the skin.
- Blankets and pillows need to be washed in-between guest.
